

## Supporting Our Veterans

As the daughter of a man who spent his career in the United States Air Force, I know first hand that supporting our veterans with world-class health care, strong pension benefits, and the tools to smoothly transition to civilian life are just as important as — and critical to — ensuring that we continue to have the strongest military in the world.

*In the United States, those who've put themselves in harm's way to protect their fellow Americans should never be without the care and support they need. Here's my plan:*

- **Work with the VA.** The onus is on Congress to fund the Department of Veterans Affairs to succeed in delivering easy access to high-quality medical treatment and mental health care.
- **Protect the G.I Bill.** Congress must ensure the G.I. Bill — and the Post-9/11 G.I. Bill, which guarantees that all post-9/11 veterans have an opportunity to earn a college education — is continually appropriated the resources it needs to fund its goals.
- **Support military families.** I know first hand the tremendous sacrifices made by the loved ones of those in uniform. In Congress I will support military spouses and children in their pursuit of education and jobs.
